1. Basis of Presentation:

The accompanying unaudited financial statements have been prepared by Shoal Games Ltd. (“the Company”) in conformity with accounting principles generally accepted in the United States of America (“US GAAP”) applicable to interim financial information and with the rules and regulations of the United States Securities and Exchange Commission. Accordingly, certain information and footnote disclosures normally included in consolidated financial statements prepared in accordance with generally accepted accounting principles have been condensed, or omitted, pursuant to such rules and regulations. In the opinion of management, the unaudited interim consolidated financial statements include all adjustments necessary for the fair presentation of the results of the interim periods presented. All adjustments are of a normal recurring nature, except as otherwise noted below. These unaudited interim consolidated financial statements should be read in conjunction with the Company’s audited consolidated financial statements and notes thereto for the year ended December 31, 2014, included in the Company’s Annual Report on Form 10-K, filed March 26, 2015, with the Securities and Exchange Commission. The results of operations for the interim periods are not necessarily indicative of the results of operations for any other interim period or for a full fiscal year.

Continuing operations

These unaudited interim consolidated financial statements have been prepared on the going concern basis, which presumes the realization of assets and the settlement of liabilities in the normal course of operations. The application of the going concern basis is dependent upon the Company achieving profitable operations to generate sufficient cash flows to fund continued operations, or, in the absence of adequate cash flows from operations, obtaining additional financing. The Company has reported losses from operations for the quarters ended June 30, 2015 and 2014, and has an accumulated deficit of 16,829,626 as at June 30, 2015. This raises substantial doubt about the Company’s ability to continue as a going concern.

In view of the matters described in the preceding paragraph, recoverability of a major portion of the recorded asset amounts and settlement of the liability amounts shown in the accompanying balance sheets is dependent upon continued operations of the Company, which in turn is dependent upon the Company’s ability to succeed in its future operations. The financial statements do not include any adjustments relating to the recoverability and classification of recorded asset amounts or amounts and classification of liabilities that might be necessary should the Company be unable to continue in existence.

Management continues to review operations in order to identify additional strategies designed to generate cash flow, improve the Company’s financial position, and enable the timely discharge of the Company’s obligations. If management is unable to identify sources of additional cash flow in the short term, it may be required to further reduce or limit operations.

2. Summary of significant accounting policies:

(a) Basis of presentation:

These consolidated financial statements have been prepared in accordance with U.S. GAAP. The financial statements include the accounts of the Company's wholly-owned subsidiaries, English Bay Office Management Limited (registered in British Columbia, Canada), Coral Reef Marketing Inc. (registered in Anguilla), Bingo.com (Antigua) Inc., Bingo.com (Wyoming) Inc., Bingo Acquisition Corp, Shoal Media Inc. (registered in Anguilla), and the 99% owned subsidiary, Shoal Games (UK) Plc (previously Bingo.com (UK) plc.) (registered in the United Kingdom). All inter-company balances and transactions have been eliminated in the consolidated financial statements.

(b) Use of estimates:

The preparation of consolidated financial statements in conformity with U.S. GAAP, requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the financial statements and recognized revenues and expenses for the reporting periods.

Significant areas requiring the use of estimates and judgment include the valuation of long-lived assets, software development, the collectability of accounts receivable, revenue recognition and the valuation of deferred tax assets. Actual results may differ significantly from these estimates.

Although the Company believes that its approach to estimates and judgments as described herein is reasonable, actual results could differ.

(c) Revenue recognition:

Trophy Bingo revenues have been recognized on the sale of in game purchases at the time of purchase.

Advertising revenues have been recognized as the advertising campaign or impressions and clicks are made on the website and when collection of the amounts are reasonably assured. Cash received in advance of the advertising campaigns or impressions and clicks are recorded under unearned revenue.

Gaming revenues have been recognized on the basis of total dollars wagered, less commissions on all games less all winnings payable to players.

(d) Foreign currency:

The consolidated financial statements are presented in United States dollars, the functional currency of the Company and its subsidiaries. The Company accounts for foreign currency transactions and the translation of foreign currency financial statements under Statement ASC 830, Foreign Currency Matters. Transaction amounts denominated in foreign currencies are translated at exchange rates prevailing at the transaction dates. Carrying values of monetary assets

and liabilities are adjusted at each balance sheet date to reflect the exchange rate at that date.

Non-monetary assets and liabilities are translated at the exchange rate on the original transaction date.

Gains and losses from restatement of foreign currency monetary and non-monetary assets and liabilities are included in income. Revenues and expenses are translated at the rates of exchange prevailing on the dates such items are recognized in earnings.

(e) Impairment of long-lived assets and long-lived assets to be disposed of:

The Company accounts for long-lived assets in accordance with the provisions of ASC 360, Property, Plant and Equipment and ASC 350, Intangibles—Goodwill and Others. During the periods presented, the only long-lived assets reported on the Company's consolidated balance sheet are equipment, other assets, security deposits, and domain name rights. These provisions require that long-lived assets and certain identifiable recorded intangibles be reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. Recoverability of assets to be held and used is measured by a comparison of the carrying amount of an asset to future net cash flows expected to be generated by the asset.

If such assets are considered to be impaired, the impairment to be recognized is measured by the amount by which the carrying amount of the assets exceeds the fair value of the assets. Assets to be disposed of are reported at the lower of the carrying amount and the fair value less costs to sell.

(f) Domain name and intangible assets:

The Company has capitalized the cost of the purchase of the domain name Bingo.com and was amortizing the cost over five years from the date of commencement of operations. In 2002, the Company suspended the amortization of the domain name cost in accordance with ASC 350, where companies are no longer required to amortize indefinite life assets but instead test the indefinite life intangible asset for impairment at least annually. The capitalized amount is based on the net present value of the minimum payments permitted under the terms of the purchase agreement. The domain name is tested for impairment by comparing the future cash flows of the domain name with its carrying value. The Company determined that as a result of level 3 unobservable inputs in accordance with ASC 820, Fair Value Measurements and Disclosures, that the fair value of the domain name exceeded the carrying value and therefore no impairment existed for the periods presented.

2. Summary of significant accounting policies (Continued):

(g) Software Development Costs:

Software development costs incurred in the research and development of new software products and enhancements to existing software products for external use are expensed as incurred once technological feasibility has been established. After technological feasibility is established, any software development costs which have been capitalized are amortized at the greater of the straight-line basis over the estimated economic life of the related product or the ratio that current gross revenues for a product bear to the total of current and anticipated future gross revenues for the related product. Commencing January 1, 2014, the Company obtained technological feasibility and is amortizing the capitalized software development costs over a period of 3 years. The Company performs an annual review of the estimated economic life and the recoverability of such capitalized software costs, using a net realizable value test.

If a determination is made that capitalized amounts are not recoverable based on the estimated cash flows to be generated from the applicable software, any remaining capitalized amounts are written off. Although the Company believes that its approach to estimates and judgments as described herein is reasonable, actual results could differ and the Company may be exposed to increases or decreases in revenue that could be material. Total software development costs for the development of Trophy Bingo were \$3,259,074 as at June 30, 2015 (June 30, 2014 - \$1,936,248).

(h) New accounting pronouncements and changes in accounting policy:

In May 2014, the FASB issued Accounting Standards Update (“ASU”) No. 2014-09, Revenue from Contracts with Customers. This guidance provides a single, comprehensive revenue recognition model for all contracts with customers. The revenue guidance contains principles that an entity will apply to determine the measurement of revenue and timing of when it is recognized. The underlying principle is that an entity will recognize revenue to depict the transfer of goods or services to customers at an amount that the entity expects to be entitled to in exchange for those goods or services. The standard will be effective for the first interim period within annual reporting periods beginning after December 15, 2016 for public entities, with no early adoption permitted. The Company does not expect the adoption of this guidance to have a material impact on the Company’s financial position or results of operations.

In June 2014, the FASB issued ASU No. 2014-12, Compensation—Stock Compensation. This guidance requires that a performance target that affects vesting, and that could be achieved after the requisite service period, be treated as a performance condition. As such, the performance target should not be reflected in estimating the grant date fair value of the award. This update further clarifies that compensation cost should be recognized in the period in which it becomes probable that the performance target will be achieved and should represent the compensation cost attributable to the periods for which the requisite service has already been rendered. The new standard is effective for fiscal years, and interim periods within those fiscal years, beginning after

December 15, 2015 and can be applied either prospectively or retrospectively to all awards outstanding as of the beginning of the earliest annual period presented as an adjustment to opening retained earnings. Early adoption is permitted. The Company does not expect the adoption of this guidance to have a material impact on the Company's financial position or results of operations.

In August 2014, the FASB issued ASU No. 2014-15, Presentation of Financial Statements - Going Concern (Subtopic 205-40): Disclosure of Uncertainties about an Entity's Ability to Continue as a Going Concern ("ASU 2014-15"). ASU 2014-15 provides guidance about management's responsibility to evaluate whether there is substantial doubt about an entity's ability to continue as a going concern and sets rules for how this information should be disclosed in the financial statements. ASU 2014-15 is effective for annual periods ending after December 15, 2016 and interim periods thereafter. Early adoption is permitted. The Company is evaluating the effect of ASU 2014-15 on our consolidated financial condition and results of operations.

In November 2014, the FASB issued ASU No. 2014-16, Determining Whether the Host Contract in a Hybrid Financial Instrument Issued in the Form of a Share Is More Akin to Debt or to Equity. This standard requires an entity to "determine the nature of the host contract by considering all stated and implied substantive terms and features of the hybrid financial instrument, weighing each term and feature on the basis of the relevant facts and circumstances which the hybrid financial instrument was issued or acquired and the potential outcome of the hybrid financial instrument. ASU 2014-16 is effective for annual periods ending after December 15, 2015 and interim periods thereafter. Early adoption is permitted. The Company is evaluating the effect of ASU 2014-16 on our consolidated financial condition and results of operations.

In January 2015, the FASB issued ASU 2015-01, which eliminates from GAAP the concept of extraordinary items. If an event or transaction meets the criteria for extraordinary classification, it is segregated from the results of ordinary operations and is shown as a separate item in the income statement, net of tax. ASU 2015-01 is effective for annual periods, and interim periods within those annual periods, beginning after December 15, 2015. Early adoption is permitted. The Company does not expect adoption of this guidance will have a material effect on its consolidated financial statements.

In February 2015, the FASB issued ASU 2015-02, which provides guidance for reporting entities that are required to evaluate whether they should consolidate certain legal entities. In accordance with ASU 2015-02, all legal entities are subject to reevaluation under the revised consolidation model. ASU 2015-02 is effective for public business entities for annual periods, and interim periods within those annual periods, beginning after December 15, 2015. Early adoption is permitted. The Company is still assessing the potential impact of ASU 2015-02 on its consolidated financial statements.

2. Summary of significant accounting policies (Continued):

(h) New accounting pronouncements and changes in accounting policy: (Continued)

On April 1, 2015, the FASB voted to defer the effective date of ASU No. 2014-09, which outlines a single comprehensive model for entities to use in accounting for revenues arising from contracts with customers and notes that lease contracts with customers are a scope exception. Public business entities may elect to adopt the amendments as of the original effective date; however, if the proposed deferral is approved, adoption is required for annual reporting periods beginning after December 15, 2017. We are currently assessing the impact of the guidance on our consolidated financial statements.

On April 17, 2015, the FASB issued ASU No. 2015-03, Simplifying the Presentation of Debt Issuance Costs, which requires debt issuance costs to be presented in the balance sheet as a direct deduction from the associated debt liability. Currently, debt issuance costs are recorded as an asset and amortization of these deferred financing costs is recorded in interest expense. Under the new standard, debt issuance costs will continue to be amortized over the life of the debt instrument and amortization will continue to be recorded in interest expense. The new standard is effective for the Company on January 1, 2016 and will be applied on a retrospective basis. The Company is currently evaluating ASU 2015-03, and anticipates a change in our presentation only since the standard does not alter the accounting for debt issuance costs.

The FASB has issued ASU 2015-05, Intangibles - Goodwill and Other - Internal-Use Software (Subtopic 350-40): Customer's Accounting for Fees Paid in a Cloud Computing Arrangement. The amendments in ASU 2015-05 provide guidance to customers about whether a cloud computing arrangement includes a software license. If a cloud computing arrangement includes a software license, then the customer should account for the software license element of the arrangement consistent with the acquisition of other software licenses. If a cloud computing arrangement does not include a software license, the customer should account for the arrangement as a service contract. The amendments do not change the accounting for a customer's accounting for service contracts. As a result of the amendments, all software licenses within the scope of Subtopic 350-40 will be accounted for consistent with other licenses of intangible assets. ASU 2015-05 is effective for public entities for annual periods, including interim periods within those annual periods, beginning after December 15, 2015. The Company does not anticipate that ASU 2015-05 will have a significant impact on their financial statements.

There have been no other recent accounting standards, or changes in accounting standards, during the three months ended June 30, 2015, as compared to the recent accounting standards described in the Annual Report, that are of material significance, or have potential material significance, to us.

2. Summary of significant accounting policies (Continued):

(i) Financial instruments:

(i) Fair values:

The fair value of accounts receivable, accounts payable, accrued liabilities and accounts payable and accrued liabilities - related party approximate their financial statement carrying amounts due to the short-term maturities of these instruments. Cash is carried at fair value using a level 1 fair value measurement.

In general, fair values determined by Level 1 inputs utilize quoted prices (unadjusted) in active markets for identical assets or liabilities. Fair values determined by Level 2 inputs utilize data points that are observable such as quoted prices, interest rates and yield curves. Fair values determined by Level 3 inputs are unobservable data points for the asset or liability, and included situations where there is little, if any, market activity for the asset. The Company's cash was measured using Level 1 inputs.

(ii) Foreign currency risk:

The Company operates internationally, which gives rise to the risk that cash flows may be adversely impacted by exchange rate fluctuations. The Company has not entered into any forward exchange contracts or other derivative instrument to hedge against foreign exchange risk.

3. Other assets:

During the year ended December 31, 2012, the Company commenced development of a social bingo game. During the quarter ended March 31, 2014, the Company launched Trophy Bingo on Android in selected markets. The Company ceased to capitalize the development costs and commenced the amortization of the capitalized development costs over a period of three years.

7. Income Taxes:

Shoal Games Ltd. is domiciled in the tax-free jurisdiction of Anguilla, British West Indies. However certain of the Company's subsidiaries incur income taxation.

The tax effects of temporary differences that give rise to significant portions of the deferred tax assets and deferred tax liabilities at June 30, 2015, and December 31, 2014, are presented below:

	June 30, 2015	December 31, 2014
Deferred tax assets:		
Net operating loss carry forwards	\$ 17,424	\$ 17,907
Valuation Allowance	(17,424)	(17,907)
	\$ -	\$ -

In assessing the realizability of deferred tax assets, management considers whether it is more likely than not that some portion or all of the deferred tax assets will not be realized. The ultimate realization of deferred tax assets is dependent upon the generation of future taxable income during the periods in which those differences become deductible.

Management considers the scheduled reversal of deferred tax liabilities, projected future taxable income, and tax planning strategies in assessing the realizability of deferred tax assets.

10. Concentrations

Major customers

For the quarter ended June 30, 2015 and 2014 the Company sold in-app purchases on its social bingo site, Trophy Bingo. There was no single player who had purchased more than 10% of the Trophy Bingo revenue.

During the quarter ended June 30, 2015 and 2014, the Company offered limited advertising. Therefore there were no advertising sales representing more than 10% of the total sales.

For the quarter ended June 30, 2014, there was no single player on the gaming site who had wagered more than 10% of the total gaming revenue. The Company was reliant on Unibet to provide contracted services pursuant to its Partner Program. These services include the supply and operation of the games (i.e. Bingo and Slots); the development and maintenance of the website, customer support to our players playing on our website www.bingo.com, processing all deposits and collection of those funds and processing all withdrawal requests.

11. Concentrations of Credit Risk:

Financial instruments that potentially subject the Company to concentrations of credit risk consist primarily of cash and accounts receivable. The Company places its cash with high quality financial institutions and limits the amount of credit exposure with any one institution.

The Company currently maintains a substantial portion of its day-to-day operating cash balances at financial institutions. At June 30, 2015, the Company had total cash balances of \$1,834,424 (December 31, 2014 - \$2,876,386) at financial institutions, where \$1,512,573 (December 31, 2014 - \$2,526,185) is in excess of federally insured limits.

As of June 30, 2015, the Company had one customer totaling \$7,674, who accounted for total accounts receivable greater than 10%. As of December 31, 2014, the Company had one customer, totaling \$112,552 who accounted for greater than 10% of the total accounts receivable.

The Company controls credit risk through monitoring procedures and receiving prepayments of cash for services rendered. The Company performs credit evaluations of its customers but generally does not require collateral to support accounts receivable.

ITEM 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

The following Management's Discussion and Analysis or Plan of Operation contains forward-looking statements that involve risks and uncertainties, as described below. Shoal Games Ltd.'s (the "Company", "we", or "us") actual results could differ materially from those anticipated in these forward-looking statements. The following discussion should be read in conjunction with the unaudited interim consolidated financial statements and notes thereto included in Part I - Item 1 of this Quarterly Report, and the audited consolidated financial statements and notes thereto and the Management Discussion and Analysis or plan of Operations included in our Annual Report on Form 10-K for the fiscal year ended December 31, 2014.

FORWARD LOOKING STATEMENTS

All statements contained in this Quarterly Report on Form 10-Q and the documents incorporated herein by reference, as well as statements made in press releases and oral statements that may be made by us or by officers, directors or employees acting on our behalf, that are not statements of historical fact constitute "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995. Such forward-looking statements involve known and unknown risks, uncertainties and other factors that could cause our actual results to be materially different from historical results or from any future results expressed or implied by such forward-looking statements. Readers should consider statements that include the terms "believe," "belief," "expect," "plan," "anticipate," "intend" or the like to be uncertain and forward-looking. In addition, all statements, trends, analyses and other information contained in this report relative to trends in net sales, gross margin, anticipated expense levels and liquidity and capital resources, constitute forward-looking statements. Particular attention should be paid to the facts of our limited operating history, the unpredictability of our future revenues, our need for and the availability of capital resources, the evolving nature of our business model, and the risks associated with systems development, management of growth and business expansion. Except as required by law, we undertake no obligation to update any forward-looking statement, whether as a result of new information, future events or otherwise. All cautionary statements made herein should be read as being applicable to all forward-looking statements wherever they appear. Readers should consider the risks more fully described in our Annual Report on Form 10-K for the year ended December 31, 2014, filed with the Securities and Exchange Commission (the "SEC") and should not place undue reliance on any forward-looking statements.

OVERVIEW

Shoal Games Ltd. (the "Company") is primarily in the business of owning and marketing a non-gambling social bingo game called Trophy Bingo. Trophy Bingo, currently live in the Google Play Store and the Apple App Store, is a puppy themed bingo adventure where players must win their way through 120 levels of bingo challenges. The game is free to download and supports in-app purchases for players who find themselves in need of extra bingos or want to engage with the premium power plays contained in the game. We are attempting to create a valuable entertainment social game with an extensive database of active players.

The Company generates its main source of revenue from players making in-app purchases in Trophy Bingo via the Google Play Store and the Apple App Store. An additional source of revenue comes from serving advertising to our user demographic inside the Trophy Bingo game. Through relationships we have with advertising aggregators and providers, companies pay to have their products and services promoted in our App, or previously, on our web site and in some cases produced residual revenues as their customers continue to play or use their services.

Prior to December 31, 2014 the Company provided a variety of Internet games plus other forms of entertainment, including an online community, chat rooms, and more. This portion of the business was sold to Unibet, plc on December 31, 2014 and can be viewed at www.bingo.com.

During the year ended December 31, 2010, the Company joined the Unibet International Limited ("Unibet") Partner Program as a network operator of their multi-language and multi-currency bingo and casino system. The Unibet Partner Program provided a complete solution which included gambling licenses, multi-language customer support, financial processing capabilities, website technology, bingo games, soft games, casino games and many other services required to operate an online gambling business. Unibet owns, creates and runs the service offered and it was the Company's responsibility to drive traffic to the website.

In early 2013, we began the design and development of our proprietary social bingo game, Trophy Bingo, in order to maximize the value of our North American visitors to whom we could not offer online gambling services. On December 31st, 2014, we sold the gambling business and the bingo.com domain name to Unibet Group plc, and focused the business on the development and marketing of our innovative social bingo game, Trophy Bingo. Subsequent to the year ended December 31, 2014, the Company changed its name to Shoal Games Ltd.

We conducted a beta test launch of Trophy Bingo in May 2013, a soft launch of Trophy Bingo in selected countries in January 2014, followed by a global soft launch of the enhanced game on Android in August, 2014 and on iOS in September 2014. We are currently targeting a full global release of a feature complete Trophy Bingo in the third quarter of 2015.

We have made a significant investment in the development of Trophy Bingo, and previously in our Internet games plus other forms of entertainment, including an online community, chat rooms, and more. As a result we have incurred significant losses since inception, and as of June 30, 2015, had an accumulated deficit of \$16,829,626.

Effective July 2, 2015, the Company commenced trading on the TSX Venture Exchange as a tier 2 Technology Issuer under the trading symbol "SGW". The Company also trades on the OTCQB under the trading symbol "SGLDF".

CRITICAL ACCOUNTING POLICIES

Our discussion and analysis of our financial condition and results of operations are based upon our financial statements, which except for lack of all detailed note disclosures, have been prepared in conformity with accounting principles generally accepted in the United States. The preparation of these financial statements requires us to make estimates and judgments that affect the reported amounts of

assets, liabilities, revenues and expenses, and related disclosure of contingent assets and liabilities. On an ongoing basis, management evaluates these judgments and estimates, including whether there are any uncertainties as to compliance with the revenue recognition criteria described below, and recoverability of long-lived assets, as well as the assessment as to whether there are contingent assets and liabilities that should be recognized or disclosed for the consolidated financial statements to fairly present the information required to be set forth therein. We base our estimates on historical experience and on various other assumptions that are believed to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates under different assumptions or conditions.

We consider the following accounting policies to be both those most important to the portrayal of our financial condition and require the most subjective judgment:

- Revenue recognition;
- Impairment of long-lived assets and long-lived assets to be disposed of;
- Software development

Revenue recognition:

Trophy Bingo revenues have been recognized on the sale of in game purchases at the time of purchase.

Advertising revenues have been recognized when collection of the amounts are reasonably assured. Cash received in advance of the advertising campaigns are recorded under unearned revenue.

Gaming revenues have been recognized on the basis of total dollars wagered, less commissions on all games less all winnings payable to players.

Software Development Costs:

Software development costs incurred in the research and development of new software products and enhancements to existing software products for external use are expensed as incurred once technological feasibility has been established. After technological feasibility is established, any software development costs which have been capitalized are amortized at the greater of the straight-line basis over the estimated economic life of the related product or the ratio that current gross revenues for a product bear to the total of current and anticipated future gross revenues for the related product. Commencing January 1, 2014, the Company obtained technological feasibility and is amortizing the capitalized software development costs over a period of 3 years. The Company performs an annual review of the estimated economic life and the recoverability of such capitalized software costs, using a net realizable value test.

If a determination is made that capitalized amounts are not recoverable based on the estimated cash flows to be generated from the applicable software, any remaining capitalized amounts are written off. Although the Company believes that its approach to estimates and judgments as described herein is reasonable, actual results could differ and the Company may be exposed to increases or decreases in revenue that could be material.

The Company capitalized 100% its development costs of Trophy Bingo in 2013. Commencing January 1, 2014, the Company commenced amortizing the capitalized software development costs over a period of 3 years and all further development costs have been expensed.

Although the Company believes that its approach to estimates and judgments as described herein is reasonable, actual results could differ and the Company may be exposed to increases or decreases in revenue that could be material. Total software development costs for the development of Trophy Bingo were \$3,259,074 as at June 30, 2015 (June 30, 2014 - \$1,936,248).

RESULTS OF OPERATIONS

Revenue

Total revenue from continuing operations for the quarter ended June 30, 2015, increased to \$6,253, an increase of 41% from revenue from continuing operations of \$4,439 for second quarter of 2014 and a decrease of 28% from revenue of \$8,692, in the first quarter of 2015. Revenue from Trophy Bingo for the quarter ended June 30, 2015, increased to \$2,465, over revenue from Trophy Bingo of \$174 for the second quarter in the prior year and a decrease over revenue from Trophy Bingo of \$4,406 in the first quarter of fiscal 2015. The increase in Trophy Bingo revenue compared to the second quarter of fiscal 2014 is due to the Company soft launching Trophy Bingo in the Google Play and Apple App Store in the third quarter of fiscal 2014. The decrease in Trophy Bingo Revenue compared to the first quarter of fiscal 2015 is due to a small initial marketing campaign with the soft launch of Trophy Bingo in the Google Play and Apple App Stores in the first quarter of fiscal 2015 which was discontinued in the second quarter of fiscal 2015.

We earned advertising revenue of \$3,788 in the quarter ended June 30, 2015, a decrease of 11% from advertising revenue of \$4,265 in the second quarter of 2014 and a decrease of 12% from advertising revenue of \$4,286 in the first quarter of 2015.

Gaming Revenue from discontinued operations was \$nil, in the quarter ended June 30, 2015, compared Gaming Revenue of \$426,746 in the second quarter of 2014.

Sales and marketing expenses

Sales and marketing expenses from continuing operations were \$28,862 for the quarter ended June 30, 2015, a decrease of 36% over expenses of \$45,277 in the second quarter of 2014 and a decrease of 38% from expenses of \$46,276 in the first quarter of 2015. This decrease in sales and marketing expenses from continuing operations in the second quarter of fiscal 2015 was due to the test marketing expense for the soft launch of Trophy Bingo in the Google play and iOS stores in the second quarter of fiscal 2014 and the first quarter of fiscal 2015. Selling and marketing expenses from continuing operations principally include publishing services and user acquisition costs to acquire players.

Sales and marketing expenses from discontinued operations were \$nil for the quarter ended June 30, 2015, compared to \$160,548 in the second quarter of fiscal 2014.

We expect to continue to incur sales and marketing expenses to increase traffic and bring new players to the Trophy Bingo game. There can be no assurances that these expenditures will result in increased traffic or significant additional revenue.

General and administrative expenses

General and administrative expenses consist primarily of premises costs for our office, legal and professional fees, and other general corporate and office expenses. General and administrative expenses increased to \$121,867 for the second quarter of 2015, an increase of 149% from costs of \$48,861 for the second quarter of 2014 and an increase of 4% from costs of \$117,694 in the first quarter of 2015. Effective July 2, 2015, the Company commenced trading on the TSX Venture Exchange as a tier 2 Technology Issuer under the trading symbol "SGW". This increase in general and administrative expenses compared to the first quarter of fiscal 2015 and the second quarter of fiscal 2014, is due to the fees incurred in the listing on the TSX Venture Exchange.

We expect to continue to incur general and administrative expenses to support the business, and there can be no assurances that we will be able to generate sufficient revenue to cover these expenses.

Salaries, wages, consultants and benefits

Salaries, wages, consultants and benefits decreased to \$108,247 for the quarter ended June 30, 2015, a decrease of 21% compared to salaries, wages, consultants and benefits of \$137,394 in the second quarter of 2014 and a decrease of 4%, over salaries, wages, consultants and benefits of \$112,573 in the first quarter of 2015. This decrease compared to the second quarter of fiscal 2014 is due lower revenue earned by the Company which therefore affects salaries, wages, consultants and benefits. The decrease compared to the first quarter of fiscal 2015 is due lower consultant charges incurred.

Depreciation and amortization

Equipment is depreciated using the declining balance method over the useful lives of the assets, ranging from three to five years. Depreciation and amortization decreased to \$763 during the quarter ended June 30, 2015, a decrease of 14% over costs of \$885 during the same quarter in the prior year and costs of \$763 in the first quarter of 2015. This decrease in depreciation and amortization compared to the second quarter of fiscal 2014 is due to the aging of the Company's equipment and the disposal of obsolete equipment.

Trophy Bingo development and amortization

During the quarter ended March 31, 2014, the Company soft-launched Trophy Bingo on Android in selected markets. The Company had a further global release of the Android version in the third quarter of 2014 and the iOS version in the fourth quarter of 2014. The Company ceased to capitalize the development of Trophy Bingo and commenced amortizing the capitalized development costs over the life of the game. The Company expensed \$318,617 in development costs during the quarter ended June 30, 2015 and amortized \$120,503 of the capitalized development costs during the quarter ended June 30, 2015. This compares to \$281,130 expensed development costs during the second quarter of 2014 and amortization of \$120,503 of the capitalized development costs during the second quarter of 2014 and \$313,037 expensed development costs during the first quarter of 2015 and amortization of \$120,503 of the capitalized development costs during the first quarter of 2015. This increase in development costs is due to an increase in content and feature development on Trophy Bingo.

In particular, the game will receive systems for handling daily rewards, collections, gifting, and an advanced spin wheel. Once released, each of these new features affects a particular performance statistic within the game and in combination it's expected that average retention and monetization will rise, while the average player acquisition cost (the average cost to generate one new install of the game) will fall. Daily rewards help to improve retention as players are inspired to come back to collect rewards. Whereas the collection and gifting system is designed to increase virality (reducing acquisition costs) and monetization as players interact more with their friends and spend more in-game currency trying to collect the special items.

Net loss and loss per share

The net loss after taxation from continuing operations for the quarter ended June 30, 2015, amounted to (\$666,512), a loss of (\$0.01) per share, compared to a net loss from continuing operations of (\$616,549) or (\$0.01) per share in the quarter ending June 30, 2014 and net loss from continuing operations of (\$737,965), or (\$0.01) per share in the first quarter of fiscal 2015.

The net loss after taxation and discontinued operations for the quarter ended June 30, 2015, amounted to (\$666,512), a loss of (\$0.01) per share, compared to a net loss of (\$350,351) or (\$0.01) per share in the second quarter of fiscal 2014 and net loss of (\$721,660) or (\$0.01) per share in the first quarter of fiscal 2015. The increase in net loss compared to the second quarter of fiscal 2014 and the first quarter of fiscal 2015, is due to the increase in the development expenses of Trophy Bingo and the increase in expenses incurred in listing on the TSX Venture Exchange.

LIQUIDITY AND CAPITAL RESOURCES

We had cash of \$1,834,424 and positive working capital of \$1,710,927 at June 30, 2015. This compares to cash of \$2,876,386 and positive working capital of \$2,856,230 at December 31, 2014.

During the quarter ended June 30, 2015, we used cash of (\$424,360) in operating activities compared to cash provided by operating activities of \$124,241 in the same period in the prior year and compared to using cash of (\$617,330) in the first quarter of 2015.

During the six months ended June 30, 2015, we used cash of (\$1,041,690) in operating activities compared to using cash in operating activities of \$174,382 in the same period in the prior year.

Our future capital requirements will depend on a number of factors, including costs associated with the further development of Trophy Bingo, the cost of marketing and player acquisition costs for Trophy Bingo, and the success and acceptance of Trophy Bingo, plus the marketing of our Web portal.

ITEM 4T. Controls and Procedures

(a) Evaluation of disclosure controls and procedures.

As required by Rule 13a-15 under the Securities Exchange Act of 1934, as amended (the "Exchange Act"), the Company carried out an evaluation under the supervision and with the participation of the Company's management, including the President and Chief Executive Officer and the Chief Financial Officer, of the effectiveness of the Company's disclosure controls and procedures as of June 30, 2015. In designing and evaluating the Company's disclosure controls and procedures, the Company and its management recognize that there are inherent limitations to the effectiveness of any system of disclosure controls and procedures, including the possibility of human error and the circumvention or overriding of the controls and procedures. Accordingly, even effective disclosure controls and procedures can only provide reasonable assurance of achieving their desired control objectives. Additionally, in evaluating and implementing possible controls and procedures, the Company's management was required to apply its reasonable judgment. Furthermore, in the course of this evaluation, management considered certain internal control areas, in which we have made and are continuing to make changes to improve and enhance controls. Based upon the required evaluation, the Chief Executive Officer and the Chief Financial Officer concluded that as of June 30, 2015, the Company's disclosure controls and procedures were effective (at the "reasonable assurance" level mentioned above) to ensure that information required to be disclosed by the Company in the reports it files or submits under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission's rules and forms.

From time-to-time, the Company and its management have conducted and will continue to conduct further reviews and, from time to time put in place additional documentation, of the Company's disclosure controls and procedures, as well as its internal control over financial reporting. The Company may from time to time make changes aimed at enhancing their effectiveness, as well as changes aimed at ensuring that the Company's systems evolve with, and meet the needs of, the Company's business. These changes may include changes necessary or desirable to address recommendations of the Company's management, its counsel and/or its independent auditors, including any recommendations of its independent auditors arising out of their audits and reviews of the Company's financial statements. These changes may include changes to the Company's own systems, as well as to the systems of businesses that the Company has acquired or that the Company may acquire in the future and will, if made, be intended to enhance the effectiveness of the Company's controls and procedures. The Company is also continually striving to improve its management and operational efficiency and the Company expects that its efforts in that regard

will from time to time directly or indirectly affect the Company's disclosure controls and procedures, as well as the Company's internal control over financial reporting.

(b) Changes in internal controls.

There were no significant changes in the Company's internal controls or other factors that could significantly affect the Company's internal controls subsequent to the date of their evaluation.
