Notes to Consolidated Financial Statements
Three Months ended June 30, 2018 and 2017
(Unaudited)

1. Basis of Presentation:

The accompanying unaudited financial statements have been prepared by Shoal Games Ltd. (“the Company”) in conformity with accounting principles generally accepted in the United States of America (“US GAAP”) applicable to interim financial information and with the rules and regulations of the United States Securities and Exchange Commission. Accordingly, certain information and footnote disclosures normally included in consolidated financial statements prepared in accordance with generally accepted accounting principles have been condensed, or omitted, pursuant to such rules and regulations. In the opinion of management, the unaudited interim consolidated financial statements include all adjustments necessary for the fair presentation of the results of the interim periods presented. All adjustments are of a normal recurring nature, except as otherwise noted below. These unaudited interim consolidated financial statements should be read in conjunction with the Company’s audited consolidated financial statements and notes thereto for the year ended December 31, 2017, included in the Company’s Annual Report on Form 10-K, filed March 20, 2018, with the Securities and Exchange Commission. The results of operations for the interim periods are not necessarily indicative of the results of operations for any other interim period or for a full fiscal year.

Continuing operations

These unaudited interim consolidated financial statements have been prepared on the going concern basis, which presumes the realization of assets and the settlement of liabilities in the normal course of operations. The application of the going concern basis is dependent upon the Company achieving profitable operations to generate sufficient cash flows to fund continued operations, or, in the absence of adequate cash flows from operations, obtaining additional financing. The Company has reported losses from operations for the quarters ended June 30, 2018 and 2017, and has an accumulated deficit of \$25,130,230 as at June 30, 2018. These material uncertainties raise substantial doubt about the Company’s ability to continue as a going concern.

In view of the matters described in the preceding paragraph, recoverability of a major portion of the recorded asset amounts and settlement of the liability amounts shown in the accompanying balance sheets is dependent upon continued operations of the Company, which in turn is dependent upon the Company's ability to succeed in its future operations. The financial statements do not include any adjustments relating to the recoverability and classification of recorded asset amounts or amounts and classification of liabilities that might be necessary should the Company be unable to continue in existence.

Management continues to review operations in order to identify additional strategies designed to generate cash flow, improve the Company’s financial position, and enable the timely discharge of the Company’s obligations. If management is unable to identify sources of additional cash flow in the short term, it may be required to further reduce or limit operations.

2. Summary of significant accounting policies:

(a) Basis of presentation:

These consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America (“US GAAP”) applicable to annual financial information and with the rules and regulations of the United States Securities and Exchange Commission. The financial statements include the accounts of the Company’s subsidiaries:

Company	Registered	% Owned
Shoal Media (Canada) Inc.	British Columbia, Canada	100%
Coral Reef Marketing Inc.	Anguilla	100%
Rooplay Media Ltd.	British Columbia, Canada	100%
Rooplay Media Kenya Limited	Kenya	100%
Shoal Media Inc.	Anguilla	100%
Shoal Games (UK) Plc	United Kingdom	99%
Shoal Media (UK) Ltd.	United Kingdom	100%

In addition, there are the following dormant subsidiaries; Bingo.com (Antigua) Inc., Bingo.com (Wyoming) Inc., and Bingo Acquisition Corp.

During the quarter ended March 31, 2017, Shoal Media UK Ltd. was incorporated under the laws of England and Wales.

During the quarter ended September 30, 2017, Rooplay Media Kenya Limited was incorporated under the laws of Kenya.

All inter-company balances and transactions have been eliminated in the consolidated financial statements.

(b) Use of estimates:

The preparation of consolidated financial statements in conformity with US GAAP, requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the financial statements and recognized revenues and expenses for the reporting periods.

Significant areas requiring the use of estimates include the collectibility of accounts receivable, the valuation of promissory notes and the estimated market rate of 15%, stock-based compensation, the derivative liability – warrants valuation and the valuation of deferred tax assets. Actual results may differ significantly from these estimates.

2. Summary of significant accounting policies (Continued):

(c) Revenue recognition:

Trophy Bingo and Garfield's Bingo and Rooplay Originals revenues have been recognized from the sale of in-game purchases, net of platform fees, at the time of purchase by the player. The revenue from in-game advertising is recognized when advertising is served to the player.

Advertising revenues, not generated in Trophy Bingo or Garfield's Bingo, have been recognized when collection of the amounts are reasonably assured.

Rooplay revenue have been recognized when collection of the subscriptions are reasonably assured and the provision of service has occurred.

(d) Foreign currency:

The consolidated financial statements are presented in United States dollars, the functional currency of the Company and its subsidiaries. The Company accounts for foreign currency transactions and translation of foreign currency financial statements under Statement ASC 830, Foreign Currency Matters. Transaction amounts denominated in foreign currencies are translated at exchange rates prevailing at the transaction dates. Carrying values of monetary assets and liabilities are adjusted at each balance sheet date to reflect the exchange rate at that date. Non-monetary assets and liabilities are translated at the exchange rate on the original transaction date.

Gains and losses from restatement of foreign currency monetary and non-monetary assets and liabilities are included in net income. Revenues and expenses are translated at the rates of exchange prevailing on the dates such items are recognized in earnings.

(e) Software Development Costs:

Software development costs incurred in the research and development of new software products and enhancements to existing software products for external use are expensed as incurred until technological feasibility has been established. After technological feasibility is established, any software development costs are capitalized and amortized at the greater of the straight-line basis over the estimated economic life of the related product or the ratio that current gross revenues for a product bear to the total of current and anticipated future gross revenues for the related product.

If a determination is made that capitalized amounts are not recoverable based on the estimated cash flows to be generated from the applicable software, any remaining capitalized amounts are written off. Although the Company believes that its approach to estimates and judgments as described herein is reasonable, actual results could differ and the Company may be exposed to increases or decreases in revenue that could be material.

2. Summary of significant accounting policies (Continued):

(e) Software Development Costs: (Continued)

Total software development costs were \$6,304,540 as at June 30, 2018 (December 31, 2017 - \$5,768,476).

(f) Stock-based compensation:

The Company recognizes all stock-based compensation as an expense in the financial statements and that such cost be measured at the fair value of the award.

The fair value of each option grant has been estimated on the date of the grant using the Black-Scholes option-pricing model with the following assumptions:

	2018	2017
Expected dividend yield	-	-
Expected stock price volatility	109%	-
Weighted average volatility	96%	-
Risk-free interest rate	1.97%	-
Expected life of options	5 years	-
Forfeiture rate	5%	-

(g) Derivative liability – warrants

Some of the warrants have an exercise price in Canadian dollars whilst the Company's functional currency is US Dollars. Therefore, in accordance with ASU 815 – Derivatives and Hedging, the warrants have a derivative liability value. This liability value has no effect on the cashflow of the Company and does not represent a cash payment of any kind.

A fair value of the derivative liability of \$215,687 has been estimated on the date of the subscription using the Binomial Lattice pricing model. During the period ended June 30, 2018, these warrants were either exercised or expired and there was a gain on derivative liability - warrants of \$44,572 and the derivative liability – warrants value decreased to \$nil with the following assumptions:

	June 30, 2018	December 31, 2017
Average stock price	-	CAD\$0.65
Expected dividend yield	-	-
Expected stock price volatility	-	93.74%
Risk-free interest rate	-	1.66%
Expected life of warrants	-	0.5 year

The average stock price is calculated on the probability weighted average price of the exercise of the warrants.

2. Summary of significant accounting policies (Continued):

(h) New accounting pronouncements and changes in accounting policy:

In May 2014, the Financial Accounting Standards Board (“FASB”) issued ASU No. 2014-09, Revenue from Contracts with Customers and issued subsequent amendments to the initial guidance in August 2016, March 2016, April 2016, and May 2016 within ASU 2016-04, ASU 2016-08, ASU 2016-10, ASU 2016-11 and ASU 2016-12, respectively. The guidance in this update supersedes the revenue recognition requirements in ASC 605, Revenue Recognition, and most industry-specific guidance throughout the Codification. Additionally, this update supersedes some cost guidance included in ASC 605-35, Revenue Recognition - Construction-Type and Production-Type Contracts. In addition, the existing requirements for the recognition of a gain or loss on the transfer of nonfinancial assets that are not in a contract with a customer (for example, assets within the scope of ASC 360, Property, Plant, and Equipment, and intangible assets, within the scope of ASC 350, Intangibles - Goodwill and Other) are amended to be consistent with the guidance on recognition and measurement in this update. The guidance states that an entity should recognize revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. An entity should also disclose sufficient information to enable users of financial statements to understand the nature, amount, timing, and uncertainty of revenue and cash flows arising from contracts with customers. The standard was to be effective for the Company as of January 1, 2017, but in August 2016, the FASB delayed the effective date of the new revenue accounting standard to January 1, 2019, and would permit early adoption as of the original effective date. Earlier adoption is not otherwise permitted for public entities. An entity can apply the revenue standard retrospectively to each prior reporting period presented (full retrospective method) or retrospectively with the cumulative effect of initially applying the standard recognized at the date of initial application in retained earnings (modified retrospective method). The Company is currently assessing the impact of this update on its consolidated financial statements. The Company adopted ASC 2014-09 as of January 1, 2018 using the modified retrospective method. The new standard will therefore be applied to all contracts not completed as of January 1, 2018. The adoption of ASC 606 has not had a material impact to its results of operations or cash flows.

In January 2016, the FASB issued ASU 2016-01, Financial Instruments - Overall (Subtopic 825-10): Recognition and Measurement of Financial Assets and Financial Liabilities (“ASU 2016-01”), which requires that equity investments, except for those accounted for under the equity method or those that result in consolidation of the investee, be measured at fair value, with subsequent changes in fair value recognized in net income. However, an entity may choose to measure equity investments that do not have readily determinable fair values at cost minus impairment, if any, plus or minus changes resulting from observable price changes in orderly transactions for the identical or a similar investment of the same issuer. ASU 2016-01 also impacts the presentation and disclosure requirements for financial instruments. ASU 2016-01 is effective for public business

entities for annual periods, and interim periods within those annual periods, beginning after December 15, 2017. Early adoption is permitted only for certain provisions. The Company adopted ASU 2016-01 as of January 1, 2018 and ASU 2016-01 has not had a material impact on the consolidated financial statements.

In February 2016, the FASB issued ASU No. 2016-02, Leases (Topic 842), which requires lessees to recognize most leases on the balance sheet. This ASU requires lessees to recognize a right-of-use asset and lease liability for all leases with terms of more than 12 months. Lessees are permitted to make an accounting policy election to not recognize the asset and liability for leases with a term of twelve months or less. The ASU does not significantly change the lessees' recognition, measurement and presentation of expenses and cash flows from the previous accounting standard. Lessors' accounting under the ASC is largely unchanged from the previous accounting standard. In addition, the ASU expands the disclosure requirements of lease arrangements. Lessees and lessors will use a modified retrospective transition approach, which includes a number of practical expedients. The provisions of this guidance are effective for annual periods beginning after December 15, 2018, and interim periods within those years, with early adoption permitted. Management is evaluating the requirements of this guidance and has not yet determined the impact of the adoption on the Company's financial position or results of operations.

In June 2016, the FASB issued ASU No. 2016-13, "Financial Instruments - Credit Losses (Topic 326): Measurement of Credit Losses on Financial Instruments". The accounting standard changes the methodology for measuring credit losses on financial instruments and the timing when such losses are recorded. ASU No. 2016-13 is effective for fiscal years, and interim periods within those years, beginning after December 15, 2019. The Company is currently evaluating the impact of ASU No. 2016-13 on its financial position, results of operations and liquidity.

In August 2016, the FASB issued ASU No. 2016-15, "Statement of Cash Flows (Topic 230)". The new guidance is intended to reduce diversity in practice in how certain transactions are classified in the statement of cash flows. ASU No. 2016-15 is effective for fiscal years, and interim periods within those years, beginning after December 15, 2017. Early adoption is permitted, provided that all of the amendments are adopted in the same period. The guidance requires application using a retrospective transition method. The Company adopted ASC 2014-09 as of January 1, 2018 and it will have no material impact on the consolidated financial statements.

2. Summary of significant accounting policies (Continued):

(h) New accounting pronouncements and changes in accounting policy: (Continued)

In October 2016, FASB issued ASU No. 2016-16, Income Taxes (Topic 740). The standard improves the accounting for income tax consequences of intra-entry transfers of assets other than inventory. This pronouncement is effective for annual reporting periods beginning after December 15, 2017. The amendments in this ASU should be applied using a modified retrospective approach. The Company adopted ASU 2016-16 on January 1, 2018 and it did not have an impact on its consolidated financial statements.

In January of 2017, the FASB issued ASU 2017-01, Business Combinations (Topic 805): Clarifying the Definition of a Business. The new standard provides a screen to determine when a set of assets and activities is not a business. The screen requires that when substantially all of the fair value of the gross assets acquired or disposed of is concentrated in a single identifiable asset or a group of similar identifiable assets, the set is not a business. This standard is effective for annual periods beginning after December 15, 2017 and interim periods within those periods, with early adoption permitted, and should be applied prospectively on or after the effective date. Upon the adoption of ASU 2017-01, it is expected that the majority of the Company's acquisitions will be accounted for as asset acquisitions, whereas under the current guidance the majority of the Company's acquisitions have been accounted for as business combinations. The most significant difference between the two accounting models that will impact the Company's consolidated financial statements is that in an asset acquisition, property acquisition costs are generally a component of the consideration transferred to acquire a group of assets and are capitalized as a component of the cost of the assets, whereas in a business combination, property acquisition costs are expensed and not included as part of the consideration transferred. The Company adopted ASU 2017-01 on January 1, 2018 and the adoption did not have a material impact on the Company's consolidated financial statements.

In May 2017, the FASB issued ASU 2017-09, Compensation – Stock Compensation (Topic 718): Scope of Modification Accounting. The new standard provides guidance about which changes to the terms or conditions of a share-based payment award require an entity to apply modification accounting in Topic 718. This pronouncement is effective for annual reporting periods beginning after December 15, 2017 but early adoption is permitted. The Company adopted ASU 2017-09 on January 1, 2018 and the adoption did not have a material impact on the Company's consolidated financial statements because the Company has not had significant modifications of its awards.

2. Summary of significant accounting policies (Continued):

(h) New accounting pronouncements and changes in accounting policy: (Continued)

In August 2017, the FASB issued ASU 2017-12, Derivatives and Hedging (Topic 850), the objective of which is to improve the financial reporting of hedging relationships to better portray the economic results of an entity's risk management activities in its financial statements. In addition, the amendments in this Update make certain targeted improvements to simplify the application and disclosure of the hedge accounting guidance in current general accepted accounting principles. This pronouncement is effective for public entities for fiscal years beginning after December 15, 2018. Early application is permitted in any period after issuance. For cash flow and net investment hedges existing at the date of adoption, an entity should apply a cumulative-effect adjustment related to eliminating the separate measurement of ineffectiveness to accumulated other comprehensive income with a corresponding adjustment to the opening balance of retained earnings as of the beginning of the fiscal year that an entity adopts the amendments in this Update. The amended presentation and disclosure guidance is required only prospectively. The Company is currently evaluating the impact of adopting this guidance on its financial position, results of operations and liquidity.

In February 2018, FASB issued Accounting Standards Update ("ASU") 2018-02, "Income Statement - Reporting Comprehensive Income (Topic 220): Reclassification of Certain Tax Effects from Accumulated Other Comprehensive Income" to address a narrow-scope financial reporting issue that arose as a consequence of the change in the tax law. On December 22, 2017, the U.S. federal government enacted a tax bill, H.R.1, An Act to Provide for Reconciliation Pursuant to Titles II and V of the Concurrent Resolution on the Budget for Fiscal Year 2018 (Tax Cuts and Jobs Act of 2017). The ASU permits a reclassification from accumulated other comprehensive income to retained earnings for stranded tax effects resulting from the newly enacted federal corporate income tax rate. The amount of the reclassification would be the difference between the historical corporate income tax rate of 34% and the newly enacted 21% corporate income tax rate. ASU 2018-02 is effective for all entities for fiscal years beginning after December 15, 2018, and interim periods within those fiscal years with early adoption permitted, including adoption in any interim period, for (i) public business entities for reporting periods for which financial statements have not yet been issued and (ii) all other entities for reporting periods for which financial statements have not yet been made available for issuance. The changes are required to be applied retrospectively to each period (or periods) in which the effect of the change in the U.S. federal corporate income tax rate in the Tax Cuts and Jobs Act of 2017 is recognized. The Company is currently evaluating the impact of adopting this guidance.

(h) New accounting pronouncements and changes in accounting policy: (Continued)

In February 2018, FASB issued ASU 2018-03, “Technical Corrections and Improvements to Financial Instruments (Subtopic 825-10) – Recognition and Measurement of Financial Assets and Financial Liabilities”. This update was issued to clarify certain narrow aspects of guidance concerning the recognition of financial assets and liabilities established in ASU No. 2016-01, “Financial Instruments—Overall (Subtopic 825-10): Recognition and Measurement of Financial Assets and Financial Liabilities”. This includes an amendment to clarify that an entity measuring an equity security using the measurement alternative may change its measurement approach to a fair valuation method in accordance with Topic 820, Fair Value Measurement, through an irrevocable election that would apply to that security and all identical or similar investments of the same issued. The update is effective for fiscal years beginning after December 15, 2017 and interim periods within those fiscal years beginning after June 15, 2018. The Company is currently assessing the impact that adopting this new accounting standard will have on our consolidated financial statements.

There have been no other recent accounting standards, or changes in accounting standards, during the quarter ended June 30, 2018, as compared to the recent accounting standards described in the Annual Report, that are of material significance, or have potential material significance, to us.

(i) Financial instruments:

(i) Fair values:

The fair value of accounts receivable, accounts payable, accrued liabilities and accounts payable and accrued liabilities - related party approximate their financial statement carrying amounts due to the short-term maturities of these instruments. Cash and cash equivalents are carried at fair value using a level 1 fair value measurement.

In general, fair values determined by Level 1 inputs utilize quoted prices (unadjusted) in active markets for identical assets or liabilities. Fair values determined by Level 2 inputs utilize data points that are observable such as quoted prices, interest rates and yield curves.

Fair values determined by Level 3 inputs are unobservable data points for the asset or liability, and included situations where there is little, if any, market activity for the asset. The Company’s cash and cash equivalents were measured using Level 1 inputs. Stock-based compensation and derivative liability – warrants were measured using Level 2 inputs.

The Company deemed a fair value of the promissory notes by discounting the notes in a manner that reflects the entity’s borrowing rate when interest cost is recognized in subsequent periods. The Company applied level 3 inputs by applying an estimated market rate of 15% to the promissory notes. In doing so, the Company used the discounted cash flow approach to value the present value of the notes.

4. Software development assets:

The Company has developed Trophy Bingo, a social bingo game, which was launched in the year ended December 31, 2014.

During the year ended December 31, 2016, the Company obtained the license to develop Garfield's Bingo. The game was launched in November 2016.

In addition, during the year ended December 31, 2016, the Company obtained the license for Rooplay. The Company commenced development of the Rooplay platform and was initially launched in March 2017, with the full release in November 2017.

In addition, during the year ended December 31, 2016, the Company commenced development of the 'Rooplay Originals'.

During the period ended June 30, 2018, the Company has expensed the development costs of all its technology as incurred and has expensed the following software development costs.

5. Promissory notes:

The Company has issued unsecured promissory notes from shareholders of the Company. The notes were repayable on March 31, 2018. The interest on the notes are 2% per annum, calculated and compounded annually and paid annually. Interest in arrears shall accrue interest. The unpaid principal amount due hereunder may be reduced to zero from time to time without affecting the validity of this note.

The promissory notes are accounted for by discounting the notes in a manner that reflects the entity's borrowing rate when interest cost is recognized in subsequent periods. The Company applied an estimated market rate of 15% to the promissory notes. In doing so, the Company used the discounted cash flow approach to value the present value of the notes. The cash flow stream from the coupon interest payments and the final principal payment were discounted at 15% to arrive at the valuations. The Company used a deemed rate of 15% as the appropriate discount rate after examining the interest rates for similar instruments issued in the same time frame for similar companies without the conversion feature.

On March 31, 2017, the maturity date on the promissory notes was extended to April 1, 2020. The Company treated the change as an extinguishment and reissuance of the notes. The Company recognized a discount on the promissory notes of \$94,191 from the extinguishment and reissuance of the notes.

During the quarter ended June 30, 2018, the promissory notes were settled in exchange for the exercise of warrants and the notes were extinguished. Since the extinguishment of the promissory note is with related parties, then in accordance with ASC 470-50-40-2, the extinguishment transactions is in essence a capital transaction. Therefore, the Company recognized a reduction of \$65,955 from equity of the Company. The Company recognized interest accretion of \$37,090 (June 30, 2017 - \$39,911).

8. Income Taxes:

Shoal Games Ltd. is domiciled in the tax-free jurisdiction of Anguilla, British West Indies. However certain of the Company's subsidiaries incur income taxation.

The Tax Cuts and Jobs Act ("Tax Act") was signed into law on December 22, 2017. Included as part of the law, was a permanent reduction in the U.S. federal corporate income tax rate from 34% to 21% effective January 1, 2018.

The tax effects of temporary differences that give rise to significant portions of the deferred tax assets and deferred tax liabilities at June 30, 2018, and December 31, 2017, are presented below:

	June 30, 2018	December 31, 2017
Deferred tax assets:		
Net operating loss carry forwards	\$ 211,808	\$ 102,809
Valuation Allowance	(211,808)	(102,809)
	\$ -	\$ -

In assessing the realizability of deferred tax assets, management considers whether it is more likely than not that some portion or all of the deferred tax assets will not be realized. The ultimate realization of deferred tax assets is dependent upon the generation of future taxable income during the periods in which those differences become deductible.

Management considers the scheduled reversal of deferred tax liabilities, projected future taxable income, and tax planning strategies in assessing the realizability of deferred tax assets.

The Company is reliant on the Google App, iOS App and Amazon App Stores to provide a platform for Rooplay, Trophy Bingo and Garfield's Bingo to be played thereon.

12. Concentrations of Credit Risk:

Financial instruments that potentially subject the Company to concentrations of credit risk consist primarily of cash, cash equivalents and accounts receivable. The Company places its cash and cash equivalents with high quality financial institutions and limits the amount of credit exposure with any one institution.

The Company currently maintains a substantial portion of its day-to-day operating cash and cash equivalents balances at financial institutions. At June 30, 2018, the Company had total cash and cash equivalents balances of \$1,439,560 (December 31, 2017 - \$478,397) at financial institutions, where \$1,173,287 (December 31, 2017 - \$336,756) is in excess of federally insured limits.

The Company has concentrations of credit risk with respect to accounts receivable, the majority of its accounts receivable are concentrated geographically in the United States amongst a small number of customers.

As of June 30, 2018, the Company had three customers, totaling \$11,627 who accounted for greater than 10% of the total accounts receivable. As of December 31, 2017, the Company had three customers, totaling \$9,066 who accounted for greater than 10% of the total accounts receivable.

The Company controls credit risk through monitoring procedures and receiving prepayments of cash for services rendered. The Company performs credit evaluations of its customers but generally does not require collateral to secure accounts receivable.

ITEM 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

The following Management's Discussion and Analysis or Plan of Operation contains forward-looking statements that involve risks and uncertainties, as described below. Shoal Games Ltd.'s (the "Company", "we", or "us") actual results could differ materially from those anticipated in these forward-looking statements. The following discussion should be read in conjunction with the unaudited interim consolidated financial statements and notes thereto included in Part I - Item 1 of this Quarterly Report, and the audited consolidated financial statements and notes thereto and the Management Discussion and Analysis or plan of Operations included in our Annual Report on Form 10-K for the fiscal year ended December 31, 2017.

FORWARD LOOKING STATEMENTS

All statements contained in this Quarterly Report on Form 10-Q and the documents incorporated herein by reference, as well as statements made in press releases and oral statements that may be made by us or by officers, directors or employees acting on our behalf, that are not statements of historical fact constitute "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995. Such forward-looking statements involve known and unknown risks, uncertainties and other factors that could cause our actual results to be materially different from historical results or from any future results expressed or implied by such forward-looking statements. Readers should consider statements that include the terms "believe," "belief," "expect," "plan," "anticipate," "intend" or the like to be uncertain and forward-looking. In addition, all statements, trends, analyses and other information contained in this report relative to trends in net sales, gross margin, anticipated expense levels and liquidity and capital resources, constitute forward-looking statements. Particular attention should be paid to the facts of our limited operating history, the unpredictability of our future revenues, our need for and the availability of capital resources, the evolving nature of our business model, and the risks associated with systems development, management of growth and business expansion. Except as required by law, we undertake no obligation to update any forward-looking statement, whether as a result of new information, future events or otherwise. All cautionary statements made herein should be read as being applicable to all forward-looking statements wherever they appear. Readers should consider the risks more fully described in our Annual Report on Form 10-K for the year ended December 31, 2017, filed with the Securities and Exchange Commission (the "SEC") and should not place undue reliance on any forward-looking statements.

OVERVIEW

Shoal Games Ltd. (TSXV : SGW) (OTCQB : SGLDF) (www.shoalgames.com) is the parent company of a group of companies, which creates consumer mobile software products and games. The Company is managed by an experienced team of technology entrepreneurs who have a long history in video games, enterprise software, mobile software, and Internet products.

The primary focus of Shoal Games is the development and marketing of the Rooplay EdTech platform for children and families. Rooplay is currently live exclusively on Google Play in 27 languages and 135 countries. Rooplay has no ads, no in-app purchases, no long downloads, no instant messaging, and no outbound links of any form. These characteristics make the product a unique platform of game content that is entirely safe for children.

The games on the Rooplay platform are designed to both entertain and educate. Children engaging with Rooplay learn technology, solve puzzles, paint pictures, practice language, learn math, and much more. Shoal Games is developing a content system with Rooplay that builds tech literacy and encourages early learning. The Company believes that to be able to teach children, they must first hold their attention. Rooplay mixes entertainment with education so that long player sessions are created in a safe environment so that children have fun and are challenged in new ways with every session. Rooplay has hundreds of interactive games in every imaginable format.

Shoal Games management believes that through the development of the Rooplay platform, and the production of exclusive EdTech game content that it can create a defensible position in the market as a premium provider of mobile games content for kids. Shoal Games has a long history in games and software development and believes that its experienced team can establish Rooplay as a global provider of mobile entertainment for children. Rooplay generates revenue for the Company from consumer subscriptions which customers pay to unlock the Rooplay game catalog. Shoal Games management believes that the development of a platform system such as Rooplay will create a significant and sustainable revenue stream for the Company.

Shoal Games management is pursuing an aggressive growth strategy by approaching local partners in many regions of the world who are interested in distributing Rooplay. Rooplay's games are not restricted to any particular region and the Company believes the demand for early learning systems such as Rooplay is strong.

During the year ended December 31, 2016, the Company commenced development of the 'Rooplay Originals'; games specifically designed to operate efficiently for the Rooplay platform.

During the year ended December 31, 2017, the Company commenced development of the software production tool Shoal.js. Shoal.js is a technology that enables licensed game developers to easily launch their games on the Rooplay platform. With the creation of Shoal.js, third-party developers are capable of bringing their premium game content to the Rooplay subscription service quickly and economically.

With more than 6.8 billion mobile phone subscriptions in place globally the demand for mobile content systems is enormous. Rooplay fills a particular need for families and with every additional piece of content that is added to the system the draw to Rooplay in comparison to other systems becomes stronger. With the competition fierce between network operators for new mobile subscribers, Shoal Games' management believes that owning a content platform system such as Rooplay will create long-term value for the Company's shareholders.

Shoal Games' other mobile products include Garfield's Bingo (www.garfieldsbingo.com), the first mobile bingo game to feature a mega-brand; and Trophy Bingo (www.trophybingo.com), live across mobile platforms with over 590,000 installs. Trophy Bingo and Garfield's Bingo are innovative free-to-play mobile games live in the Apple, Google and Amazon App Stores. The Company has generated its main source of revenue to-date from players making in-app purchases in Trophy Bingo and Garfield's Bingo.

Effective July 2, 2016, the Company commenced trading on the TSX Venture Exchange as a tier 2 Technology Issuer under the trading symbol “SGW”. The Company also trades on the OTCQB under the trading symbol “SGLDF”.

CRITICAL ACCOUNTING POLICIES

Our discussion and analysis of our financial condition and results of operations are based upon our financial statements, which except for lack of all detailed note disclosures, have been prepared in conformity with accounting principles generally accepted in the United States. The preparation of these financial statements requires us to make estimates and judgments that affect the reported amounts of assets, liabilities, revenues and expenses, and related disclosure of contingent assets and liabilities. On an ongoing basis, management evaluates these judgments and estimates, including whether there are any uncertainties as to compliance with the revenue recognition criteria described below, and recoverability of long-lived assets, as well as the assessment as to whether there are contingent assets and liabilities that should be recognized or disclosed for the consolidated financial statements to fairly present the information required to be set forth therein. We base our estimates on historical experience and on various other assumptions that are believed to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates under different assumptions or conditions.

We consider the following accounting policies to be both those most important to the portrayal of our financial condition and require the most subjective judgment:

- Revenue recognition;
- Software development

Revenue recognition:

Trophy Bingo and Garfield’s Bingo and Rooplay Originals revenues have been recognized from the sale of in-game purchases, net of platform fees, at the time of purchase by the player. The revenue from in-game advertising is recognized when advertising is served to the player.

Advertising revenues, not generated in Trophy Bingo and Garfield’s Bingo, have been recognized when collection of the amounts are reasonably assured.

Rooplay revenue have been recognized when collection of the subscriptions are reasonably assured and the provision of service has occurred.

Software Development Costs:

Software development costs incurred in the research and development of new software products and enhancements to existing software products for external use are expensed as incurred until technological feasibility has been established. After technological feasibility is established, any software development costs are capitalized and amortized at the greater of the straight-line basis over the estimated economic life of the related product or the ratio that current gross revenues for a product bear to the total of current and anticipated future gross revenues for the related product.

If a determination is made that capitalized amounts are not recoverable based on the estimated cash flows to be generated from the applicable software, any remaining capitalized amounts are written off. Although the Company believes that its approach to estimates and judgments as described herein is reasonable, actual results could differ and the Company may be exposed to increases or decreases in revenue that could be material.

Total software development costs were \$6,304,539 as at June 30, 2018 (December 31, 2017 - \$5,768,476).

RESULTS OF OPERATIONS

Revenue

Total revenue, net of platform fees to Apple, Google and Amazon, for the quarter ended June 30, 2018, increased to \$24,343, an increase of 7% from revenue of \$22,776 for second quarter of 2017 and revenue of \$24,351, in the first quarter of 2018. The increase in total revenue compared to the second quarter of fiscal 2017, is due to greater exposure of Rooplay in the marketplace.

Sales and marketing expenses

Sales and marketing expenses were \$115,508 for the quarter ended June 30, 2018, an increase of 129% over expenses of \$50,531 in the second quarter of fiscal 2017 and a decrease of 27% from sales and marketing expenses of \$157,184 in the first quarter of fiscal 2018. This increase in sales and marketing expenses in the quarter ended June 30, 2018, compared to the second quarter of fiscal 2017 was due to larger marketing campaigns to acquire new subscribers for Rooplay. The decrease in sales and marketing expenses in the quarter ended June 30, 2018, compared to the first quarter of fiscal 2018 was due to a larger marketing campaign in the first quarter of fiscal 2018, which was reduced in the second quarter of fiscal 2018 due to delays in launching Rooplay on additional platforms. Selling and marketing expenses principally include publishing services and user acquisition costs to acquire players.

We expect to incur increased sales and marketing expenses to bring new players to Rooplay; our Rooplay Originals; and our bingo games. There can be no assurances that these expenditures will result in increased traffic or significant additional revenue.

General and administrative expenses

General and administrative expenses consist primarily of premises costs for our office, legal and professional fees, and other general corporate and office expenses. General and administrative expenses decreased to \$66,282 for the quarter ended June 30, 2018, a decrease of 7% from costs of \$71,089 for the second quarter of fiscal 2017 and a decrease of 21% from costs of \$83,708 in the first quarter of 2018. The decrease in general and administrative expenses compared to the second quarter of fiscal 2017 and the first quarter of fiscal 2018, is due to the legal expenses and filing fees incurred in preparing the private placements completed in those periods.

We expect to continue to incur general and administrative expenses to support the business, and there can be no assurances that we will be able to generate sufficient revenue to cover these expenses.

Salaries, wages, consultants and benefits

Salaries, wages, consultants, and benefits increased to \$168,211 for the quarter ended June 30, 2018, an increase of 44% compared to salaries, wages, consultants, and benefits of \$116,537 in the second quarter of 2017 and an increase of 4%, over salaries, wages, consultants, and benefits of \$161,422 in the first quarter of 2018. This increase compared to the second and first quarter of fiscal 2018, is due to higher consulting charges incurred for financing and marketing of the Company.

Depreciation and amortization

Equipment is depreciated using the declining balance method over the useful lives of the assets, ranging from three to five years. Depreciation and amortization increased to \$1,404 during the quarter ended June 30, 2018, an increase of 69% over costs of \$833 during the same quarter in the prior year and an increase of 29% over costs of \$1,089 in the first quarter of 2018. This increase in depreciation and amortization compared to the second quarter of fiscal 2017 and the first quarter of fiscal 2018 is due to acquisitions of equipment.

Software development and amortization

The Company does not capitalize its development costs. The Company expensed \$265,445 in software development costs during the quarter ended June 30, 2018, an increase of 35% in software development costs compared to software development costs of \$196,816 expensed during the second quarter of fiscal 2017 and a decrease of 2% in software development costs of \$270,619 expensed during the first quarter of 2018. The increase compared to the second quarter of fiscal 2017 is due to higher software development expenses incurred in the development of Rooplay Originals and related technology. The decrease compared to the first quarter of fiscal 2018 is due to lower software development expenses incurred in the development of Rooplay Originals and related technology.

Stock-based compensation expense

During the quarter ended June 30, 2018, the Company incurred non-cash stock compensation expenses of \$584,783 from the issuance of stock options in the second quarter of fiscal 2018, an increase compared to stock-based compensation expense \$3,693 in the first quarter of fiscal 2018. This increase is due to stock options granted in the second quarter of fiscal 2018. The options are issued to consultants and employees as per the Companies 2015 Stock Option Plan.

Derivative liability - Warrants

During the year ended December 31, 2017, the Company closed a TSX Venture Exchange approved non-brokered private placement financing totaling CAD\$1.045 million. The private placement consisted of 2,323,779 units priced at CAD\$0.45 (\$0.34) per unit. Each Unit was comprised of one common share and one share purchase warrant. The warrants had an exercise price in Canadian dollars whilst the Company's functional currency is US Dollars. Therefore, in accordance with ASU 815 – Derivatives and Hedging, the warrants have a derivative liability value. This liability value has no effect on the cashflow of the Company and does not represent a cash payment of any kind. These warrants were either exercised or expired during the second quarter of fiscal 2018. During the quarter ended June 30, 2018, the Company recognized a gain of \$215,687 on this derivative liability. This compares to the Company recognizing a loss of (\$171,115) on this derivative liability in the first quarter of fiscal 2018.

Net loss and loss per share

The net loss after taxation for the quarter ended June 30, 2018, amounted to (\$989,473), a loss of (\$0.02) per share, compared to a net loss of (\$439,042) or (\$0.01) per share in the quarter ending June 30, 2017 and net loss of (\$835,368), or (\$0.01) per share in the first quarter of fiscal 2018.

LIQUIDITY AND CAPITAL RESOURCES

We had cash and cash equivalents of \$1,439,560 and working capital of \$1,424,501 at June 30, 2018. This compares to cash and cash equivalents of \$478,397 and working capital of \$345,184 at December 31, 2017.

During the quarter ended June 30, 2018, we used cash of (\$657,524) in operating activities compared to cash used in operating activities of (\$563,510) in the same period in the prior year and compared to using cash of (\$657,412) in the first quarter of 2018.

Net cash used by financing activities was (\$1,923) in the quarter ended June 30, 2018, which compares to cash generated by financing activity of \$785,728 in the same period in the prior year. This cash used by financing activity is due to conversion of the promissory note to shares of the Company at a conversion price of CAD\$0.65 per share.

Our future capital requirements will depend on a number of factors, including costs associated with the further development of Rooplay; Rooplay Originals; Shoal.js; Garfield's Bingo and Trophy Bingo; the cost of marketing and player acquisition costs for Rooplay; Rooplay Originals; Garfield's Bingo and Trophy Bingo, and the success of Rooplay; Rooplay Originals; Garfield's Bingo and Trophy Bingo.

ITEM 4 Controls and Procedures

(a) Evaluation of disclosure controls and procedures.

As required by Rule 13a-15 under the Securities Exchange Act of 1934, as amended (the "Exchange Act"), the Company carried out an evaluation under the supervision and with the participation of the Company's management, including the President and Chief Executive Officer and the Chief Financial Officer, of the effectiveness of the Company's disclosure controls and procedures as of June 30, 2018. In designing and evaluating the Company's disclosure controls and procedures, the Company and its management recognize that there are inherent limitations to the effectiveness of any system of disclosure controls and procedures, including the possibility of human error and the circumvention or overriding of the controls and procedures. Accordingly, even effective disclosure controls and procedures can only provide reasonable assurance of achieving their desired control objectives. Additionally, in evaluating and implementing possible controls and procedures, the Company's management was required to apply its reasonable judgment. Furthermore, in the course of this evaluation, management considered certain internal control areas, in which we have made and are continuing to make changes to improve and enhance controls. Based upon the required evaluation, the Chief Executive Officer and the Chief Financial Officer concluded that as of June 30, 2018, the Company's disclosure controls and procedures were effective (at the "reasonable assurance" level mentioned above) to ensure that information required to be disclosed by the Company in the reports it files or submits under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission's rules and forms.

From time-to-time, the Company and its management have conducted and will continue to conduct further reviews and, from time to time put in place additional documentation, of the Company's disclosure controls and procedures, as well as its internal control over financial reporting. The Company may from time to time make changes aimed at enhancing their effectiveness, as well as changes aimed at ensuring that the Company's systems evolve with, and meet the needs of, the Company's business. These changes may include changes necessary or desirable to address recommendations of the Company's management, its counsel and/or its independent auditors, including any recommendations of its independent auditors arising out of their audits and reviews of the Company's financial statements. These changes may include changes to the Company's own systems, as well as to the systems of businesses that the Company has acquired or that the Company may acquire in the future and will, if made, be intended to enhance the effectiveness of the Company's controls and procedures. The Company is also continually striving to improve its management and operational efficiency and the Company expects that its efforts in that regard will from time to time directly or indirectly affect the Company's disclosure controls and procedures, as well as the Company's internal control over financial reporting.

(b) Changes in internal controls.

There were no significant changes in the Company's internal controls or other factors that could significantly affect the Company's internal controls subsequent to the date of their evaluation.
